

Environmental Policy Statement

Acorn Waste Management is a Waste Management Facilitator, operating on a national basis. We work by utilising a network of service providers throughout the country to source and supply waste management solutions for our clients; meaning that your waste will never travel further than is needed. We work with our clients to reduce the impact of their Waste Management operations and can help you meet your Waste Reduction targets.

Acorn Waste Management recognises that it has a duty of care to the environment. This Policy has been written to allow the effective communication of our aims and objectives in fulfilling this duty

Acorn Waste Management Ltd is committed to meeting the following aims:

- Preventing pollution
- Working to ensure that the service delivered to our customers consistently meets or exceeds their expectations, and respond effectively to any concerns which may arise
- Working to influence the waste management and recycling activities of our customers through the selection of suppliers
- Monitoring our performance and identify improvement action as necessary, in order to continually improve our systems and procedures as well as in our environmental performance
- Accessing the most technically accurate advice available
- Complying with relevant environmental and other legislation throughout all stages of our business activities and operations
- Periodically reviewing this policy to ensure its continuing relevance and accuracy in meeting our aims

Acorn Waste Management will achieve these commitments by:

- Implementing and maintaining an EMS that fulfils the requirements of ISO 14001:2004.
- Annually setting and reviewing progress towards environmental objectives and targets and management programmes to ensure continual improvement
- Providing training for all employees to understand the company's environmental policies, objectives and programmes and their role within them
- Working with suppliers and contractors to ensure full compliance with Duty of Care legislation
